MAKING LIGHT WORK

Super-slim illumination

The Spanlite Graphic Panel incorporates our Spanlite-Sheet-LXJ edge-lighting technology, providing clean and even light across the whole panel. With a range of off-the-shelf sizes up to 3 x 2m, only our system offers an even spread of light across such large distances. With a depth of only 18mm, this product provides the slimmest of solutions for wall-mounted displays.

Spanlite also offer a complete design solution for your project, including a full creative studio and production service. We have install teams too, so from artistic concepts through to final installation we can help you deliver your creative vision.

- Super-slim panel illuminates evenly across the whole display surface.
- **The leading technology for even illumination across large distances.**
- Options for image panel mounting.
- Fluorescent 'stripes' and bleached out poster colours a thing of the past.
- Sizes up to 3 x 2m per panel.
- Built in the UK using top-brand components leading to reliable, long-life LED lighting.
